SECTION 2: Hazards identification			
<b>Classification of the substance or mixture</b> This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.			
Classification :	Flammable liquids, Category 2 Skin irritation, Category 2 Reproductive toxicity, Category 2 Specific target organ systemic toxicity - single exposure, Category 3, Central nervous system Specific target organ systemic toxicity - repeated exposure, Category 2, Auditory organs		
SDS Number:100000014265	1/19

mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.

	-17 °C (1 °F)
:	No data available
:	Alcohol-resistant foam. Carbon dioxide (CO2). Dry chemical.
:	High volume water jet.
:	Do not allow run-off from fire fighting to enter drains or water courses.
:	Wear self-contained breathing apparatus for firefighting if necessary.
:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.
:	Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames hot surfaces and sources of ignition.
:	Hydrocarbons. Carbon oxides.
me	asures
:	Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.
:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
:	Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

SAFETY DATA SHEET

### SECTION 7: Handling and storage

Handling		
Advice on safe handling	:	Avoid formation of aerosol. Do not breathe vapors/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.
Advice on protection against fire and explosion	:	Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.
Storage		
Requirements for storage areas and containers	:	No smoking. Keep container tightly closed in a dry and well- ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

Toluene	108-88-3	Toluene: 0.02 mg/l (In blood)	Prior to last shift of workweek	2010-03-01
		Toluene: 0.03 mg/l (Urine)	End of shift (As soon as possible after exposure ceases)	2010-03-01
		o-Cresol: 0.3 mg/g Creatinine (Urine)	End of shift (As soon as possible after exposure ceases)	2010-03-01

### **Engineering measures**

### Engineering measures

Adequate ventilation to control airborned concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances. Adequate ventilation to control airborned concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

#### Personal protective equipment

Respiratory protection : Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as:. Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Air-Purifying Respirator for Organic Vapors. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection. Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as:. 	may not provide adequate protection.
Hand protection	: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
Eye protection	: Eye wash bottle with pure water. Tightly fitting safety goggles.
Skin and body protection	: Choose body protection according to the amount and concentration of the dangerous substance at the work place. Wear as appropriate:. Flame retardant antistatic protective clothing. Workers should wear antistatic footwear. Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate:. Flame retardant antistatic protective clothing. Workers should wear antistatic footwear.
Hygiene measures	: When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

2,2,4-Trimethylpentane (Isooctane)	: NOEL: 0.17 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea) Method: OECD Test Guideline 211 Information given is based on data obtained from similar substances.
Elimination information (pers	istence and degradability)
Bioaccumulation	
Cyclohexane	: Bioconcentration factor (BCF): 167 This material is not expected to bioaccumulate.
Biodegradability	: This material is not expected to be readily biodegradable.
Ecotoxicology Assessmen	t
Acute aquatic toxicity Cyclohexane	: Very toxic to aquatic life.
2,2,4-Trimethylpentane (Isooctane)	: Very toxic to aquatic life.
Toluene	: Toxic to aquatic life.
tert-Butyl Disulfide	: Toxic to aquatic life.
Chronic aquatic toxicity Cyclohexane	: Very toxic to aquatic life with long lasting effects.
2,2,4-Trimethylpentane	: Very toxic to aquatic life with long lasting effects.
(Isooctane) Toluene	: Harmful to aquatic life with long lasting effects.
tert-Butyl Disulfide	: Toxic to aquatic life with long lasting effects.
Results of PBT assessment Cyclohexane	: Non-classified PBT substance, Non-classified vPvB substanc
2,2,4-Trimethylpentane (Isooctane)	: Non-classified PBT substance, Non-classified vPvB substanc
Toluene	: Non-classified vPvB substance, Non-classified PBT substanc
Additional ecological information	: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal., Very toxic to aquatic life with long lasting effects.

### SECTION 13: Disposal considerations

The information in this SDS pertains only to the product as shipped.

Version 1.5

Revision Date 2018-05-31

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product	: The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.
Contaminated packaging	<ul> <li>Empty remaining contents. Dispose of as unused product.</li> <li>Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.</li> </ul>

#### **SECTION 14: Transport information**

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

SAFETY DATA SHEET

Revision Date 2018-05-31

TION 15: Regulatory info	mation
National legislation	
SARA 311/312 Hazards	<ul> <li>Flammable (gases, aerosols, liquids, or solids)</li> <li>Skin corrosion or irritation</li> <li>Reproductive toxicity</li> <li>Specific target organ toxicity (single or repeated exposure)</li> <li>Aspiration hazard</li> </ul>
CERCLA Reportable Quantity	: 2950 lbs Cyclohexane
SARA 302 Reportable Quantity	: This material does not contain any components with a SARA 302 RQ.
SARA 302 Threshold Planning Quantity	: No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.
SARA 304 Reportable Quantity	: This material does not contain any components with a section 304 EHS RQ.
SARA 313 Ingredients	<ul> <li>The following components are subject to reporting levels established by SARA Title III, Section 313:</li> <li>Cyclohexane - 110-82-7 Toluene - 108-88-3</li> </ul>
Clean Air Act	
Potential Clas	product neither contains, nor was manufactured with a Class I or s II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR Subpt. A, App.A + B).
The following chemical(s) a	are listed as HAP under the U.S. Clean Air Act, Section 12 (40 CFR 61) : 2,2,4-Trimethylpentane (Isooctane) - 540-84-1 Toluene - 108-88-3
	ain any chemicals listed under the U.S. Clean Air Act Section 112(r) fo tion (40 CFR 68.130, Subpart F).
Number:100000014265	16/19

The following chemical(s) are listed under the U.S. Clean Air Act Section 111 SOCMI Intermedi         Final VOC's (40 CFR 60.489):         :       Cyclohexane - 110-82-7         Toluene - 108-88-3         US State Regulations         Pennsylvania Right To Know         :       Cyclohexane - 110-82-7         .2,2,4-Trimethylpentane (Isooctane) - 540-84-1         Toluene - 108-88-3         New Jersey Right To Know         :       Cyclohexane - 110-82-7         .2,2,4-Trimethylpentane (Isooctane) - 540-84-1         Toluene - 108-88-3         New Jersey Right To Know         :       Cyclohexane - 110-82-7         .2,2,4-Trimethylpentane (Isooctane) - 540-84-1         Toluene - 108-88-3         New Jersey Right To Know         :       Cyclohexane - 110-82-7         .2,2,4-Trimethylpentane (Isooctane) - 540-84-1         Toluene - 108-88-3         tert-Butyl Disulfide - 110-06-5         California Prop. 65       :         Ingredients       :         State of California to cause birth defects or other reproductive harm.
