MEDICAL APPLICATION CAUTION: Do not use this material in medical applications involving permanent implantation in the human body or permanent contact with internal body fluids or tissues fluids or tissues.

Do not use this material in medical applications involving brief or temporary implantation in the human body or contact with internal body fluids or tissues unless the material has been provided directly from Chevron Phillips Chemical Company LP or its legal affiliates under an agreement which expressly acknowledges the contemplated use.

Chevron Phillips Chemical Company LP and its legal affiliates makes no representation, promise, express warranty or implied warranty concerning the suitability of this material for use in implantation in the human body or in contact with internal body fluids or tissues.

SECTION 2: Hazards identification

2.1

Classification of the substance or mixture REGULATION (EC) No 1272/2008

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

2.2

Labeling (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

2.3

Other hazards Results of PBT and vPvB assessment	: This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.
Endocrine disrupting properties	 The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.1 - 3.2

Substance or Mixture

Hazardous ingredients

Version 1.9

SAFETY DATA SHEET

Revision Date 2023-09-05

SEC	CTION 4: First aid measures	5			
4.1	Description of first-aid me	asu	res		
	If inhaled	:	Move to fresh air in case of accidental inhalation of dust or fumes from overheating or combustion. If symptoms persist, call a physician.		
	In case of skin contact	:	If the molten material gets on skin, quickly cool in water. Seek immediate medical attention. Do not try to peel the solidified material from the skin or use solvents or thinners to dissolve it.		
	In case of eye contact	:	In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.		
	If swallowed	:	Do not induce vomiting without medical advice.		
4.2	Most important symptoms Notes to physician	and	effects, both acute and delayed		
	Symptoms	:	No information available.		
4.3	Risks Indication of any immediat	: e mo	No information available. edical attention and special treatment needed		
	Treatment	:	No information available.		
SEC	CTION 5: Firefighting measu	ires			
	Flash point	:	No data available		
	Autoignition temperature	:	No data available		
5.1	Extinguishing media				
	Suitable extinguishing media	:	Water. Water mist. Dry chemical. Carbon dioxide (CO2). Foam. If possible, water should be applied as a spray from a fogging nozzle since this is a surface burning material. The application of high velocity water will spread the burning surface layer. Avoid the use of straight streams that may create a dust cloud and the risk of a dust explosion. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.		
5.2	Special hazards arising fro	om t :	Risks of ignition followed by flame propagation or secondary		
	fighting		explosions can be caused by the accumulation of dust, e.g. on floors and ledges.		
5.3	Advice for firefighters Special protective equipment for fire-fighters	:	Use personal protective equipment. Wear self-contained breathing apparatus for firefighting if necessary.		
SDS	S Number:100000102911		4/14		

Ma		SAFETY DATA SHEET
	Irlex® TRB-115 Polye sion 1.9	Revision Date 2023-09-05
	Further information	: This material will burn although it is not easily ignited.
	Fire and explosion protection	: Treat as a solid that can burn. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.
	Hazardous decomposition products	: Normal combustion forms carbon dioxide, water vapor and may produce carbon monoxide, other hydrocarbons and hydrocarbon oxidation products (ketones, aldehydes, organic acids) depending on temperature and air availability. Incomplete combustion can also produce formaldehyde.
SEC	CTION 6: Accidental release r	neasures
~ ~		
6.1	Personal precautions, prote	ctive equipment and emergency procedures
~ ~	Personal precautions	: Sweep up to prevent slipping hazard. Avoid breathing dust. Avoid dust formation.
6.2	Environmental precautions	
	Environmental precautions	: Do not contaminate surface water. Prevent product from entering drains.
6.3	Methods and materials for c Methods for cleaning up	ontainment and cleaning up : Clean up promptly by sweeping or vacuum.
	Additional advice	: Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).
6.4	Reference to other sections	
	Reference to other sections	: For personal protection see section 8. For disposal considerations see section 13.
SEC	CTION 7: Handling and storage	e
7.1		
/.1	Precautions for safe handlir Handling	g
	Advice on safe handling	: Use good housekeeping for safe handling of the product. Keep out of water sources and sewers. Spilled pellets may create a slipping hazard. Electrostatic charge may accumulate and create a hazardous condition when handling this material. To minimize this hazard, bonding and grounding may be necessary, but may not by themselves be sufficient. At elevated temperatures (>350°F, >177°C), polyethylene can release vapors and gases, which are irritating to the mucous membranes of the eyes, mouth,
		throat, and lungs. These substances may include acetaldehyde, acetone, acetic acid, formic acid, formaldehyde

		SAFETY DATA SHEET
Marlex® TRB-115 Poly	etl	hylene
Version 1.9		Revision Date 2023-09-05
		and acrolein. Based on animal data and limited epidemiological evidence, formaldehyde has been listed as a carcinogen. Following all recommendations within this SDS should minimize exposure to thermal processing emissions.
Advice on protection against fire and explosion	:	Treat as a solid that can burn. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.
.2 Conditions for safe storage, including any incompatibilities		
Storage		
Requirements for storage areas and containers	:	Keep in a dry place. Keep in a well-ventilated place.
Advice on common storage	:	Do not store together with oxidizing and self-igniting products.
German storage class	:	Combustible Solids
7.3		
Specific End Use Use	:	Manufacture of plastics products
SECTION 8: Exposure controls/		

8.2

Exposure controls Engineering measures

Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

Respiratory protection	 No respiratory protection is normally required. If heated material generates vapor or fumes that are not adequately controlled by ventilation, wear an appropriate respirator. Use the following elements for air-purifying respirators: Organic Vapor and Formaldehyde. A positive pressure, air-supplying respirator may be appropriate if there is potential for uncontrolled release, aerosolization, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection. Dust safety masks are recommended when the dust concentration is excessive.
Eye protection	: Use of safety glasses with side shields for solid handling is good industrial practice. If this material is heated, wear chemical goggles or safety glasses with side shields or a face
SDS Number:100000102911	6/14

rlex® TRB-115 Polye	SAFETY DATA SHE
sion 1.9	Revision Date 2023-09
	shield. If there is potential for dust, use chemical goggles.
Skin and body protection	: At ambient temperatures use of clean and protective clothing is good industrial practice. If the material is heated or molten, wear thermally insulated, heat-resistant gloves that are able to withstand the temperature of the molten product. If this material is heated, wear insulated clothing to prevent skin contact if engineering controls or work practices are not adequate.
CTION 9: Physical and chemic	al properties
Information on basic physic	al and chemical properties
Appearance	
Physical state	: solid
Color	: Opaque
Odor	: Mild to no odor
Odor Threshold	: No data available
Safety data	
Flash point	: No data available
Lower explosion limit	: Not applicable
Upper explosion limit	: Not applicable
Autoignition temperature	: No data available
Thermal decomposition	: Low molecular weight hydrocarbons, alcohols, aldehydes, acids and ketones can be formed during thermal processing.
рН	: Not applicable
Pour point	: Not applicable
Melting point/freezing point	90-140°C (194-284°F)
Initial boiling point and boiling range	: Not applicable
Vapor pressure	: Not applicable
Relative density	: Not applicable
Density	: 0,91 - 0,97 g/cm3 Please refer to the Technical Data Sheet (TDS) for more detailed information relating to the nominal physical properties, including density, of this polyethylene resin grade.
Water solubility	: negligible
Partition coefficient: n-	: No data available
6 Number:100000102911	7/14

Marlex® TRB-115 Polyethylene

Ve	rsion 1.9		Revision Date 2023-09-05
	octanol/water Solubility in other solvents	: No data available	
	Viscosity, dynamic	: Not applicable	
	Viscosity, kinematic	: Not applicable	
	Relative vapor density	: Not applicable	
	Evaporation rate	: Not applicable	
9.2	Other information Conductivity	: No data available	

SECTION 10: Stability and reactivity

10.1

Reactivity	: This material is considered non-reactive under normal ambient and anticipated storage and handling conditions of temperature and pressure.
10.2 Chemical stability	: This material is considered stable under normal ambient and
	anticipated storage and handling conditions of temperature and pressure.

10.3

Possibility of hazardous reactions Hazardous reactions : Hazardous reactions: None known. 10.4 Conditions to avoid : Avoid prolonged storage at elevated temperature. 10.5 Materials to avoid : Avoid contact with strong oxidizing agents. Thermal decomposition : Low molecular weight hydrocarbons, alcohols, aldehydes, acids and ketones can be formed during thermal processing. 10.6 Hazardous decomposition : Normal combustion forms carbon dioxide, water vapor and products may produce carbon monoxide, other hydrocarbons and hydrocarbon oxidation products (ketones, aldehydes, organic acids) depending on temperature and air availability. Incomplete combustion can also produce formaldehyde. Other data : No decomposition if stored and applied as directed.

SECTION 11: Toxicological i	nformation
------------------------------------	------------

11.1

11.1	.1 Information on toxicological effects		
	Marlex® TRB-115 Polyethylene Acute oral toxicity :	Presumed Not Toxic	
	Marlex® TRB-115 Polyethylene Acute inhalation toxicity :	Presumed Not Toxic	
	Marlex® TRB-115 Polyethylene Acute dermal toxicity :	Presumed Not Toxic	
	Marlex® TRB-115 Polyethylene Skin irritation :	No skin irritation	
	Marlex® TRB-115 Polyethylene Eye irritation :	No eye irritation	
	Marlex® TRB-115 Polyethylene Sensitization :	Did not cause sensitization on laboratory animals.	
	Marlex® TRB-115 Polyethylene Aspiration toxicity : Toxicology Assessment	No data available.	
	Marlex® TRB-115 Polyethylene Specific Target Organ : Toxicity (Single Exposure)	Remarks: No adverse effects expected	:
	Marlex® TRB-115 Polyethylene Specific Target Organ : Toxicity (Repeated Exposure)	Remarks: No adverse effects expected	:
	Marlex® TRB-115 Polyethylene CMR effects :	Carcinogenicity: No adverse effects expected Mutagenicity: No adverse effects expected Reproductive toxicity: No adverse effects expected	
11.2	Information on other hazards		
	Marlex® TRB-115 Polyethylene Further information :	This product contains POLYMERIZED OLEFINS. During thermal processing (>350°F, >177°C) polyolefins can release vapors and gases (aldehydes,ketones and organic acids) which are irritating to the mucous membranes of the eyes,	
SDS	Number:100000102911	9/14	

larlex® TRB-115 Polye	SAFETY DATA SHEE
/ersion 1.9	Revision Date 2023-09-0
	mouth, throat, and lungs. Generally these irritant effects are all transitory. However, prolonged exposure to irritating off-gases can lead to pulmonary edema. Formaldehyde (an aldehyde) has been classified as a carcinogen based on animal data and limited epidemiological evidence.
Endocrine disrupting properties	: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
ECTION 12: Ecological informat	ion
2.1 Toxicity	
Ecotoxicity effects	
Toxicity to fish	: Not a hazardous substance or mixture.
Toxicity to daphnia and other aquatic invertebrates	: No data available
2.2 Persistence and degradabilit	t y
Biodegradability	: Result: This material is not expected to be readily biodegradable.
2.3 Bioaccumulative potential Elimination information (persist	tence and degradability)
Bioaccumulation	: Does not bioaccumulate.
2.4 Mobility in soil	
Mobility	: The product is insoluble and floats on water.
12.5 Results of PBT and vPvB as Results of PBT assessment	 sessment This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.
2.6 Endocrine disrupting proper	ties
Endocrine disrupting properties	: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

12.7

12.

Other adverse effects

	Additional ecological information	:	This material is not expected to be harmful to aquatic organisms., Fish or birds may eat pellets which may obstruct their digestive tracts.
.8	Additional Information		
	Ecotoxicology Assessment		
	Short-term (acute) aquatic hazard	:	This material is not expected to be harmful to aquatic organisms.
	Long-term (chronic) aquatic hazard	:	This material is not expected to be harmful to aquatic organisms.

SECTION 13: Disposal considerations

13.1

Waste treatment methods

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

SECTION 14: Transport information

14.1 - 14.7

Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

Marlex® TRB-115 Polyethylene

Version 1.9

Revision Date 2023-09-05

EOSCA	European Oilfield Specialty	PEL	Permissible Exposure Limit
	Chemicals Association		
EINECS	European Inventory of Existing	PICCS	Philippines Inventory of
	Chemical Substances		Commercial Chemical Substances
MAK	Germany Maximum Concentration	PRNT	Presumed Not Toxic
	Values		
GHS	Globally Harmonized System	RCRA	Resource Conservation Recovery
			Act
>=	Greater Than or Equal To	STEL	Short-term Exposure Limit
IC50	Inhibition Concentration 50%	SARA	Superfund Amendments and
			Reauthorization Act.
IARC	International Agency for Research	TLV	Threshold Limit Value
	on Cancer		
IECSC	Inventory of Existing Chemical	TWA	Time Weighted Average
	Substances in China		
ENCS	Japan, Inventory of Existing and	TSCA	Toxic Substance Control Act
	New Chemical Substances		
KECI	Korea, Existing Chemical	UVCB	Unknown or Variable Composition,
	Inventory		Complex Reaction Products, and
			Biological Materials
<=	Less Than or Equal To	WHMIS	Workplace Hazardous Materials
			Information System
LC50	Lethal Concentration 50%	ATE	Acute toxicity estimate
