### **SECTION 2: Hazards identification**

### Classification of the substance or mixture

This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.

### Classification

Not a hazardous substance or mixture.

#### Labeling

Not a hazardous substance or mixture.

#### Carcinogenicity:

IARC

NTP

No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

SDS Number:100000102070

2/12

nfluid® mPAO 150 o	cSt				
ion 2.6			Revision Date 2024-		
ACGIH	No ingredient of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcino by ACGIH.				
TION 3: Composition/infor	mation on	ingredients			
Synonyms	: Polya	alphaolefin; PAO			
Molecular formula	: Polymer				
Component 1-Octene Homopolymer, Hy Contains no hazardous ingre			Weight % 100		
FION 4: First aid measures	i.				
General advice	: No h	azards which require	special first aid measures.		
f inhaled		If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.			
n case of skin contact		Wash off with soap and water. Wash contaminated clothing before re-use.			
n case of eye contact	lense	Flush eyes with water as a precaution. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.			
f swallowed	beve	Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.			
FION 5: Firefighting measu	ires				
Flash point		²C (482°F) od: ASTM D-92			
Suitable extinguishing media			es that are appropriate to local rrounding environment.		
Unsuitable extinguishing media	: High	volume water jet.			
Specific hazards during fire ighting		Exposure to decomposition products may be a hazard to health.			
Special protective equipment for fire-fighters		Wear self-contained breathing apparatus for firefighting if necessary.			
Further information	meas		nemical fires. Use extinguishing riate to local circumstances and the		

nfluid® mPAO 150 o	SAFETY DATA SHI
sion 2.6	Revision Date 2024-06
Fire and explosion protection	: Normal measures for preventive fire protection.
Hazardous decomposition products	: Carbon oxides.
CTION 6: Accidental release	measures
Personal precautions	: Material can create slippery conditions.
Environmental precautions	: Clean contaminated floors and objects thoroughly while observing environmental regulations.
Methods for cleaning up	: Wipe up with absorbent material (e.g. cloth, fleece). Keep in suitable, closed containers for disposal.
CTION 7: Handling and stora	age
Handling	
Advice on safe handling	: For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Dispose of rinse water in accordance with local and national regulations.
Advice on protection against fire and explosion	: Normal measures for preventive fire protection.
Storage	
Requirements for storage areas and containers	: Keep container tightly closed in a dry and well-ventilated place. Electrical installations / working materials must comply with the technological safety standards.
CTION 8: Exposure controls	/personal protection
Consider the potential hazar activities, and other substand personal protective equipme exposure to harmful levels o recommended. The user sh	rol airborned concentrations below the exposure guidelines/limits. ds of this material (see Section 2), applicable exposure limits, job ces in the work place when designing engineering controls and selec nt. If engineering controls or work practices are not adequate to pre- f this material, the personal protective equipment listed below is ould read and understand all instructions and limitations supplied wit on is usually provided for a limited time or under certain circumstanc
Personal protective equipr	nent
Respiratory protection	: If ventilation or other engineering controls are not adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure, a supplied-air NIOSH approved respirator may be appropriate.

nfluid® mPAO 150 o	cSt	SAFETY DATA SHE
sion 2.6		Revision Date 2024-06-
Hand protection		The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
Eye protection	:	Eye wash bottle with pure water. Tightly fitting safety goggles.
Skin and body protection		Choose body protection according to the amount and concentration of the substance and the task performed at the work place. Appropriate PPE may include:. Lightweight protective clothing.
Hygiene measures		General industrial hygiene practice. Prevent vapor buildup by providing adequate ventilation during and after use. Wash hands before breaks and at the end of workday.
CTION 9: Physical and chem	nical	properties
Information on basic phys	ical a	and chemical properties
Appearance		
Form Physical state Color	:	Oil liquid clear, light
Safety data		
Flash point	:	250°C (482°F) Method: ASTM D-92
Ignition temperature	:	310°C (590°F)
Lower explosion limit	:	No data available
Upper explosion limit	:	No data available
Thermal decomposition	:	No data available
Molecular formula	:	Polymer
Molecular weight	:	Varies
рН	:	No data available
Freezing point	:	-39°C (-38°F)
Boiling point/boiling range	:	>250°C (>482°F)
Density	:	0.84 g/cm3
Water solubility	:	Soluble in hydrocarbon solvents; insoluble in water.
Viscosity, kinematic		1700 cSt

### SAFETY DATA SHEET

## Version 2.6

Revision Date 2024-06-18

EOSCA	European Oilfield Specialty Chemicals Association	PEL	Permissible Exposure Limit
EINECS	European Inventory of Existing Chemical Substances	PICCS	Philippines Inventory of Commercial Chemical Substances
MAK	Germany Maximum Concentration Values	PRNT	Presumed Not Toxic
GHS	Globally Harmonized System	RCRA	Resource Conservation Recovery Act
>=	Greater Than or Equal To	STEL	Short-term Exposure Limit
IC50	Inhibition Concentration 50%	SARA	Superfund Amendments and Reauthorization Act.
IARC	International Agency for Research on Cancer	TLV	Threshold Limit Value
IECSC	Inventory of Existing Chemical Substances in China	TWA	Time Weighted Average
ENCS	Japan, Inventory of Existing and New Chemical Substances	TSCA	Toxic Substance Control Act
KECI	Korea, Existing Chemical Inventory	UVCB	Unknown or Variable Composition, Complex Reaction Products, and Biological Materials
<=	Less Than or Equal To	WHMIS	Workplace Hazardous Materials Information System
LC50	Lethal Concentration 50%	ATE	Acute toxicity estimate
