Classification of the substance or mixture This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.

Classification

Not a hazardous substance or mixture.

Labeling

Not a hazardous substance or mixture.

Carcinogenicity: IARC

 IARC
 No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

 NTP
 No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or entipipated exclination.

equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Fire and explosion		Normal measures for preventive fire protection.
protection	•	
Hazardous decomposition products	:	Carbon oxides.
TION 6: Accidental release	me	asures
Personal precautions	:	Material can create slippery conditions.
Environmental precautions	:	Clean contaminated floors and objects thoroughly while observing environmental regulations.
Methods for cleaning up	:	Wipe up with absorbent material (e.g. cloth, fleece). Keep in suitable, closed containers for disposal.
TION 7: Handling and stora	age	
Handling		
Advice on safe handling	:	For personal protection see section 8. Smoking, eating and
		drinking should be prohibited in the application area. Dispose of rinse water in accordance with local and national regulations.
Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.
Storage		
Requirements for storage areas and containers	:	Keep container tightly closed in a dry and well-ventilated place. Electrical installations / working materials must comply with the technological safety standards.
	1	
TION 8: Exposure controls	/per	sonal protection
Engineering measures		
Consider the potential hazar activities, and other substand personal protective equipme exposure to harmful levels o recommended. The user sh	ds o ces i nt. 1 f this ould	irborned concentrations below the exposure guidelines/limits. If this material (see Section 2), applicable exposure limits, job in the work place when designing engineering controls and selecting of engineering controls or work practices are not adequate to prever s material, the personal protective equipment listed below is read and understand all instructions and limitations supplied with s usually provided for a limited time or under certain circumstances.
Personal protective equipr	nen	t
Respiratory protection	:	If ventilation or other engineering controls are not adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure, a supplied-air NIOSH approved respirator may be appropriate.
Hand protection	:	The suitability for a specific workplace should be discussed

sion 2.6	Revision Date 2024-06
51011 2.0	with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
Eye protection	: Eye wash bottle with pure water. Tightly fitting safety goggles.
Skin and body protection	: Choose body protection according to the amount and concentration of the substance and the task performed at the work place. Appropriate PPE may include:. Lightweight protective clothing.
Hygiene measures	: General industrial hygiene practice. Prevent vapor buildup by providing adequate ventilation during and after use. Wash hands before breaks and at the end of workday.
CTION 9: Physical and chem	ical properties
