SAFETY DATA SHEET

Marlex® DTR Polyethylene

Version 1.7

Revision Date 2024-09-09

According to Regulation (EC) No. 1907/2006, Regulation (EC) No. 2020/878

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Product information

Product Name Material	 Marlex® DTR Polyethylene 1018385, 1018382, 1019583, 1019579, 1019580, 1019581, 1019582, 1019040, 1019039, 1019038, 1019037, 1019036, 1104892, 1104881, 1104876, 1104880, 1104879, 1104878, 1104877, 1079966, 1079965, 1079964, 1079963, 1079962
	1104877, 1079966, 1079965, 1079964, 1079965, 1079962

EC-No.Registration number

Chemical name	CAS-No. EC-No. Index No.	Legal Entity Registration number
Ethylene	74-85-1 200-815-3 601-010-00-3	Chevron Phillips Chemical Company LP 01-2119462827-27-0004
Ethylene	74-85-1 200-815-3 601-010-00-3	Chevron Phillips Chemicals International NV 01-2119462827-27-0271
1-Hexene	592-41-6 209-753-1	Chevron Phillips Chemical Company LP 01-2119475505-34-0005

Contains no hazardous ingredients according to GHS. :								

SECTION 4: First aid measures

4.1	Description of first-aid mea	asu	res
	If inhaled	:	Move to fresh air in case of accidental inhalation of dust or fumes from overheating or combustion. If symptoms persist, call a physician.
	In case of skin contact	:	If the molten material gets on skin, quickly cool in water. Seek immediate medical attention. Do not try to peel the solidified material from the skin or use solvents or thinners to dissolve it.
	In case of eye contact	:	In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
	If swallowed	:	Do not induce vomiting without medical advice.
4.2	Most important symptoms a Notes to physician	and	effects, both acute and delayed
	Symptoms	:	No data available.
4.3	Risks Indication of any immediate	: e me	No data available. edical attention and special treatment needed
	Treatment	:	No data available.
SEC	CTION 5: Firefighting measu	res	
	Flash point	:	No data available
	Autoignition temperature	:	No data available
5.1	Extinguishing media		
	Suitable extinguishing media	:	Water. Water mist. Dry chemical. Carbon dioxide (CO2). Foam. If possible, water should be applied as a spray from a fogging nozzle since this is a surface burning material. The
			application of high velocity water will spread the burning surface layer. Avoid the use of straight streams that may create a dust cloud and the risk of a dust explosion. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
SDS	S Number:10000000677	_	application of high velocity water will spread the burning surface layer. Avoid the use of straight streams that may create a dust cloud and the risk of a dust explosion. Use extinguishing measures that are appropriate to local

5.2

5.2	.		
	Special hazards arising from Specific hazards during fire fighting	nt :	he substance or mixture Risks of ignition followed by flame propagation or secondary explosions can be caused by the accumulation of dust, e.g. on floors and ledges.
5.3			
	Advice for firefighters Special protective equipment for fire-fighters	:	Use personal protective equipment. Wear self-contained breathing apparatus for firefighting if necessary.
	Further information	:	This material will burn although it is not easily ignited.
	Fire and explosion protection	:	Treat as a solid that can burn. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.
	Hazardous decomposition products	:	Normal combustion forms carbon dioxide, water vapor and may produce carbon monoxide, other hydrocarbons and hydrocarbon oxidation products (ketones, aldehydes, organic acids) depending on temperature and air availability. Incomplete combustion can also produce formaldehyde.
SEC	CTION 6: Accidental release r	ne	asures
6.1	Personal precautions, prote	ecti	ve equipment and emergency procedures
	Personal precautions	:	Sweep up to prevent slipping hazard. Avoid breathing dust. Avoid dust formation.
6.2	Environmental precautions		
	Environmental precautions	:	Do not contaminate surface water. Prevent product from entering drains.
6.3			
	Methods and materials for of Methods for cleaning up	con :	• •
	Additional advice	:	Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).
6.4	Reference to other sections		
		•	
	Reference to other sections	:	For personal protection see section 8. For disposal considerations see section 13.
SEC	CTION 7: Handling and storage	ge	
7.1	Precautions for safe handlin Handling	ng	

SDS Number:10000000677

5/13

	arlex® DTR Polyethy	/lor	Δ
	rsion 1.7	ICI	Revision Date 2024-09-09
	Advice on safe handling	:	Use good housekeeping for safe handling of the product. Keep out of water sources and sewers. Spilled pellets may create a slipping hazard. Electrostatic charge may accumulate and create a hazardous condition when handling this material. To minimize this hazard, bonding and grounding may be necessary, but may not by themselves be sufficient. At elevated temperatures (>350°F, >177°C), polyethylene can release vapors and gases, which are irritating to the mucous membranes of the eyes, mouth, throat, and lungs. These substances may include acetaldehyde, acetone, acetic acid, formic acid, formaldehyde and acrolein. Based on animal data and limited epidemiological evidence, formaldehyde has been listed as a carcinogen. Following all recommendations within this SDS should minimize exposure to thermal processing emissions.
	Advice on protection against fire and explosion	:	Treat as a solid that can burn. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.
7.2		e, in	cluding any incompatibilities
	Storage		
	Requirements for storage areas and containers	:	Keep in a dry place. Keep in a well-ventilated place.
	Advice on common storage	:	Do not store together with oxidizing and self-igniting products.
SE(CTION 8: Exposure controls	/per	sonal protection
8.2	activities, and other substand personal protective equipme exposure to harmful levels of recommended. The user sho	ces nt. f this ould	f this material (see Section 2), applicable exposure limits, job in the work place when designing engineering controls and selecting If engineering controls or work practices are not adequate to prevent is material, the personal protective equipment listed below is read and understand all instructions and limitations supplied with is usually provided for a limited time or under certain circumstances.
8.2	Engineering measures Consider the potential hazard activities, and other substand personal protective equipme exposure to harmful levels of recommended. The user sho	ces nt. f this ould on is	in the work place when designing engineering controls and selecting If engineering controls or work practices are not adequate to prevent is material, the personal protective equipment listed below is read and understand all instructions and limitations supplied with is usually provided for a limited time or under certain circumstances.

arlex® DTR Polyethy rsion 1.7	Revision Date 2024-09
	may not provide adequate protection. Dust safety masks are recommended when the dust concentration is excessive.
Eye protection	: Use of safety glasses with side shields for solid handling is good industrial practice. If this material is heated, wear chemical goggles or safety glasses with side shields or a face shield. If there is potential for dust, use chemical goggles.
Skin and body protection	: At ambient temperatures use of clean and protective clothing is good industrial practice. If the material is heated or molten, wear thermally insulated, heat-resistant gloves that are able to withstand the temperature of the molten product. If this material is heated, wear insulated clothing to prevent skin contact if engineering controls or work practices are not adequate.
CTION 9: Physical and chem	ical properties
	ical and chemical properties
Appearance	
Form Physical state	: Pellets : solid
Color	: Opaque
Odor	: Mild to no odor
Odor Threshold	: No data available
Safety data	
Flash point	: No data available
Lower explosion limit	: Not applicable
Upper explosion limit	: Not applicable
Autoignition temperature	: No data available
Thermal decomposition	: Low molecular weight hydrocarbons, alcohols, aldehydes, acids and ketones can be formed during thermal processing.
рН	: Not applicable
Melting point/ range	: 90-140°C (194-284°F)
Freezing point	Not applicable
Initial boiling point and boiling	g : Not applicable
range Vapor pressure	: Not applicable
Relative density	: Not applicable
Density	: 0,91 - 0,97 g/cm3
S Number:10000000677	7/13

Marlex® DTR Polyethyle	SAFETY DATA SHEE
Version 1.7	Revision Date 2024-09-0
	Please refer to the Technical Data Sheet (TDS) for more detailed information relating to the nominal physical properties, including density, of this polyethylene resin grade.
Water solubility	: negligible
Partition coefficient: n- octanol/water	: No data available
Solubility in other solvents	: No data available
Viscosity, dynamic	: Not applicable
Viscosity, kinematic	: Not applicable
Relative vapor density	: Not applicable
Evaporation rate	: Not applicable
SECTION 10: Stability and reactive	vity
I0.1 Reactivity	: This material is considered non-reactive under normal ambient and anticipated storage and handling conditions of temperature and pressure.
0.2 Chemical stability	: This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature
10.3	and pressure.
Possibility of hazardous read	ctions
Hazardous reactions	: Hazardous reactions: None known.
0.4 Conditions to avoid	: Avoid prolonged storage at elevated temperature.
10.5 Materials to avoid	: Avoid contact with strong oxidizing agents.
Thermal decomposition	: Low molecular weight hydrocarbons, alcohols, aldehydes, acids and ketones can be formed during thermal processing.
0.6 Hazardous decomposition products	: Normal combustion forms carbon dioxide, water vapor and may produce carbon monoxide, other hydrocarbons and hydrocarbon oxidation products (ketones, aldehydes, organic acids) depending on temperature and air availability. Incomplete combustion can also produce formaldehyde.
SDS Number:10000000677	8/13

Marlex® DTR Polyethyle	SAFETY DATA SHEE
	Revision Date 2024-09-0
Other data	: No decomposition if stored and applied as directed.
	This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
SECTION 11: Toxicological inform	nation
1.1 Information on toxicological	effects
Marlex® DTR Polyethylene Acute oral toxicity	: Presumed Not Toxic
Marlex® DTR Polyethylene Acute inhalation toxicity	: Presumed Not Toxic
Marlex® DTR Polyethylene Acute dermal toxicity	: Presumed Not Toxic
Marlex® DTR Polyethylene Skin irritation	: No skin irritation
Marlex® DTR Polyethylene Eye irritation	: No eye irritation
Marlex® DTR Polyethylene Sensitization	: Did not cause sensitization on laboratory animals.
1.2 Information on other hazards	S
Marlex® DTR Polyethylene Further information	: This product contains POLYMERIZED OLEFINS. During thermal processing (>350°F, >177°C) polyolefins can release vapors and gases (aldehydes,ketones and organic acids) which are irritating to the mucous membranes of the eyes, mouth, throat, and lungs. Generally these irritant effects are all transitory. However, prolonged exposure to irritating off-gases can lead to pulmonary edema. Formaldehyde (an aldehyde) has been classified as a carcinogen based on animal data and limited epidemiological evidence.
Endocrine disrupting properties	: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
SECTION 12: Ecological informat	tion
SDS Number:10000000677	9/13

Version 1.7 Revision Date 2024-09-09 12.1 Toxicity **Ecotoxicity effects** 12.2 Persistence and degradability Biodegradability : This material is not expected to be readily biodegradable. 12.3 **Bioaccumulative potential** Elimination information (persistence and degradability) Bioaccumulation : Does not bioaccumulate. 12.4 Mobility in soil Mobility : The product is insoluble and floats on water. 12.5 Results of PBT and vPvB assessment Results of PBT assessment : This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher. 12.6 **Endocrine disrupting properties** Endocrine disrupting : The substance/mixture does not contain components considered to have endocrine disrupting properties according properties to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher. 12.7 Other adverse effects Additional ecological : This material is not expected to be harmful to aquatic information organisms., Fish or birds may eat pellets which may obstruct their digestive tracts. 12.8 Additional Information Ecotoxicology Assessment Short-term (acute) aquatic : This material is not expected to be harmful to aquatic hazard organisms. Long-term (chronic) aquatic : This material is not expected to be harmful to aquatic hazard organisms. **SECTION 13: Disposal considerations**

SAFETY DATA SHEET

Marlex® DTR Polyethylene

Version 1.7

Revision Date 2024-09-09

Waste treatment methods

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

SECTION 14: Transport information

14.1 - 14.7

Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

US DOT (UNITED STATES DEPARTMENT OF TRANSPORTATION) NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

IMO / IMDG (INTERNATIONAL MARITIME DANGEROUS GOODS)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

IATA (INTERNATIONAL AIR TRANSPORT ASSOCIATION)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

ADR (AGREEMENT ON DANGEROUS GOODS BY ROAD (EUROPE))

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

RID (REGULATIONS CONCERNING THE INTERNATIONAL TRANSPORT OF DANGEROUS GOODS (EUROPE))

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

ADN (EUROPEAN AGREEMENT CONCERNING THE INTERNATIONAL CARRIAGE OF DANGEROUS GOODS BY INLAND WATERWAYS)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

Further information

Significant changes since the last version are highlighted in the margin. This version replaces all previous versions.

The information in this SDS pertains only to the product as shipped.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
