

**Synfluid® PAO 6 cSt**

Version 1.19

Revision Date 2025-10-22

according to GB/T 16483 and GB/T 17519

**SECTION 1: Identification of the substance/mixture and of the company/undertaking****Product information**

Product Name : Synfluid® PAO 6 cSt  
Material : 1133534, 1111741, 1111740, 1111734, 1079874, 1079931, 1079667  
Use : Synthetic Lubricants  
Uses advised against :  
This material should not be used for purposes other than the identified uses in section 1 without expert advice.

**Company** : Chevron Phillips Chemical Company LP  
9500 Lakeside Blvd.  
The Woodlands, TX 77381

**SECTION 2: Hazards identification****Classification of the substance or mixture**

**GHS Classification and Labeling: Follow GB 13690, GB 15258 and GB 30000.2 to GB 30000.29 (GHS 2013)**

**Emergency Overview**

**Physical state:** liquid    **Color:** Clear, Colorless    **Odor:** Odorless

**Classification**

Not a hazardous substance or mixture.

**Labeling**

Not a hazardous substance or mixture.

**SECTION 3: Composition/information on ingredients**

Synonyms : Polyalphaolefin  
PAO

**Synfluid® PAO 6 cSt**

Version 1.19

Revision Date 2025-10-22

Molecular formula : Polymer

| Chemical name                     | CAS-No. / EINECS-No. | Concentration<br>[wt%] |
|-----------------------------------|----------------------|------------------------|
| 1-Decene Homopolymer Hydrogenated | 68037-01-4           | 100                    |

Contains no hazardous ingredients according to GHS.

**SECTION 4: First aid measures**

General advice : No hazards which require special first aid measures.

If inhaled : If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.

In case of eye contact : Remove contact lenses. Protect unharmed eye. If eye irritation persists, consult a specialist.

If swallowed : Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.

**Notes to physician**

Treatment : Treat symptomatically.

**SECTION 5: Firefighting measures**

Flash point : 239-258°C (462-496°F)  
Method: ASTM D-92

Autoignition temperature : 354°C (669°F)

Suitable extinguishing media : Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Unsuitable extinguishing media : High volume water jet.

Specific hazards during fire fighting : Standard procedure for chemical fires. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Special protective equipment for fire-fighters : Wear self-contained breathing apparatus for firefighting if necessary.

Further information : Standard procedure for chemical fires. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Fire and explosion protection : Normal measures for preventive fire protection.

Hazardous decomposition products : Carbon oxides.

**Synfluid® PAO 6 cSt**

Version 1.19

Revision Date 2025-10-22

**SECTION 6: Accidental release measures**

- Personal precautions : Use personal protective equipment. Ensure adequate ventilation. Evacuate personnel to safe areas. Material can create slippery conditions.
- Environmental precautions : No special environmental precautions required.
- Methods for cleaning up : Wipe up with absorbent material (e.g. cloth, fleece). Keep in suitable, closed containers for disposal.

**SECTION 7: Handling and storage****Handling**

- Advice on safe handling : For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area.
- Advice on protection against fire and explosion : Normal measures for preventive fire protection.

**Storage**

- Requirements for storage areas and containers : Electrical installations / working materials must comply with the technological safety standards.
- Uses advised against : This material should not be used for purposes other than the identified uses in section 1 without expert advice.
- Advice on common storage : No materials to be especially mentioned.
- Use : Synthetic Lubricants

**SECTION 8: Exposure controls/personal protection**

Not applicable

**Engineering measures**

Adequate ventilation to control airborne concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

**Personal protective equipment**

- Respiratory protection : If ventilation or other engineering controls are not adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure, a supplied-air NIOSH approved respirator may be appropriate.

**Synfluid® PAO 6 cSt**

Version 1.19

Revision Date 2025-10-22

- |                          |   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------|---|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hand protection          | : | The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. |
| Eye protection           | : | Eye wash bottle with pure water. Tightly fitting safety goggles.                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Skin and body protection | : | Choose body protection according to the amount and concentration of the substance and the task performed at the work place. Appropriate PPE may include:. Lightweight protective clothing.                                                                                                                                                                                                                                                                                                                   |
| Hygiene measures         | : | General industrial hygiene practice.                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

Sensitization**

: Did not cause sensitization on laboratory animals.

**Repeated dose toxicity**

1-Decene Homopolymer  
Hydrogenated

: Species: Rat  
Application Route: Oral  
Dose: 0, 8000, 20000, 50000 ppm  
Exposure time: 28 day  
Number of exposures: daily  
NOEL: 6,245 mg/kg  
Method: OECD Test Guideline 407

Species: Rat  
Application Route: oral gavage  
Dose: 0, 1000, 7000, 50000 ppm  
Exposure time: 13 weeks  
Number of exposures: daily  
NOEL: 4,159.4 mg/kg  
Method: OCED Guideline 408

**Synfluid® PAO 6 cSt  
Genotoxicity in vitro**

: Remarks: No adverse effects expected, Information given is based on data obtained from similar substances.

**Synfluid® PAO 6 cSt  
Genotoxicity in vivo**

: Remarks: No adverse effects expected, Information given is based on data obtained from similar substances.

**Synfluid® PAO 6 cSt  
Carcinogenicity**

: Remarks: This information is not available.

**Reproductive toxicity**

1-Decene Homopolymer  
Hydrogenated

: Species: Rat  
Sex: male and female  
Application Route: oral gavage  
Dose: 0, 100, 500, 1000 mg/kg

**Synfluid® PAO 6 cSt**

Version 1.19

Revision Date 2025-10-22

Number of exposures: daily  
Test period: 10 weeks  
Method: OECD Test Guideline 415  
NOAEL Parent: 1,000 mg/kg

**Developmental Toxicity**

1-Decene Homopolymer  
Hydrogenated

: Animal testing did not show any effects on fetal development.  
Information given is based on data obtained from similar substances.

**Aspiration toxicity**

1-Decene Homopolymer  
Hydrogenated

: No aspiration toxicity classification.

**Toxicology Assessment****Synfluid® PAO 6 cSt  
CMR effects**

: Carcinogenicity:  
Not classifiable as a human carcinogen.  
Mutagenicity:  
Animal testing did not show any mutagenic effects.  
Teratogenicity:  
no developmental effects  
Reproductive toxicity:  
No toxicity to reproduction

**Synfluid® PAO 6 cSt  
Further information**

: No data available.

**SECTION 12: Ecological information****Ecotoxicity effects****Toxicity to fish**

: LL50: > 1,000 mg/l  
Exposure time: 96 h  
Species: Oncorhynchus mykiss (rainbow trout)  
  
LC50: > 750 mg/l  
Exposure time: 96 h  
Species: Pimephales promelas (fathead minnow)

**Toxicity to daphnia and  
other aquatic invertebrates**

: EL50: > 1,000 mg/l  
Exposure time: 48 h  
Species: Daphnia magna (Water flea)  
static test Method: OECD Test Guideline 202

**Toxicity to algae**

: NOELR: 1,000 mg/l  
Exposure time: 72 h  
Species: Scenedesmus capricornutum (fresh water algae)  
static test Method: OECD Test Guideline 201  
  
EC50: > 1,000 mg/l  
Exposure time: 96 h

**Synfluid® PAO 6 cSt**

Version 1.19

Revision Date 2025-10-22

Species: Selenastrum capricornutum (algae)

Biodegradability : This material is not expected to be readily biodegradable.  
Expected to be inherently biodegradable.

Elimination information (persistence and degradability)

Bioaccumulation : This material is not expected to bioaccumulate.

Mobility : No data available

Results of PBT assessment

1-Decene Homopolymer : Non-classified PBT substance, Non-classified vPvB substance  
Hydrogenated

Additional ecological : No data available  
information

**Ecotoxicology Assessment**

Short-term (acute) aquatic hazard : This material is not expected to be harmful to aquatic organisms.

Long-term (chronic) aquatic hazard : This material is not expected to be harmful to aquatic organisms.

**SECTION 13: Disposal considerations**

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal.

**SECTION 14: Transport information**

**The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).**

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

**US DOT (UNITED STATES DEPARTMENT OF TRANSPORTATION)**

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR  
TRANSPORTATION BY THIS AGENCY.
